RECOMMENDATIONS

Application:
Renfrew Athletics trainers tape may be used in conjunction with other Renfrew Athletics products to provide a custom applied stabilization while maintaining complete comfort to the athlete. In particular, Renfrew Athletics recommends pre-wrapping any area to be taped with our foam underwrap tape for maximum comfort.

Athletic tapes should only be applied by trained professional. Incorrect wrapping may not provide the support needed by the athlete, and if applied too tight, may restrict circulation.

NOTE: Shelf life is one year from date of shipment, when stored in a cool dry place below 76°F (24°C). Rolls should be stored on end.
